October 22, 2018

Subject: Road Paving
Overlook Road (*from Bryant Avenue to Gedney Way*)

Dear Owner or Resident:

The Department of Public Works (DPW) has awarded a contract to PCI Industries Corp., for the above captioned work.

Preparation work consisting of but not limited to roadway milling, casting adjustments and minor curb replacement will begin on or about **October 29th** (weather permitting). Once the preparation work is completed a new final top course of asphaltic concrete pavement will be placed.

Work shall be performed approximately between the hours of 7:00 a.m. and 4:30 p.m. with the street remaining open to vehicular traffic; however on-street parking will be restricted. Travel lanes will be managed utilizing appropriate signage, flag personnel and police officers. Access for residents, deliveries, refuse & recycling, buses, and emergency vehicles will still be provided.

Please note that your street is part of a larger paving contract which includes other locations which are worked on simultaneously. As the contractor completes the preparation work on each of the various sites you may see periods of inactivity until the contractor enters into the next phase of the project.

City DPW personnel will be on site to ensure the satisfactory performance of the contract. Although we will make every effort to expedite this work, please bear in mind that this is weather sensitive, and your patience and cooperation is essential and will be most appreciated.

If you have any questions please do not hesitate to call Chris D. Robeson, Chief Construction Coordinator at (914) 422-1215.

Thank you for your patience and cooperation.

Yours truly,

Anthony R. Carr, P.E., CFM
Deputy Commissioner of Public Works
